Frontend – Yakima Teng --- 3 years frontend experience

3 years frontend experience, expected 20k * 13

Basic Info

Location: Shanghai City, China	Birth: August, 1991
Mobile Phone: 184–5801–9856	Email: veryplans@gmail.com
GitHub: https://github.com/Yakima–Teng	
Education: Bachelor degree in Pharmacy, Shenyang Pharmaceutical University, 2009–2013	

Skills

Although not majored in computer, I learnt frontend skills myself with reading English books and articles, had grade–skipping experience in school, so a basic learning ability can be guaranteed.

Familiar with ES6, CSS3/SASS/LESS, able to develop webpages with hight similarity to original UI designs.

Experienced in using React (1 year) and Vue (2 years), having experience in using Flow/TypeScript.

Experienced in mobile–platform webpages development and debugging, including pages in web apps and hybrid apps.

Enjoy writing small tools using Gulp/Webpack and other node packages to help improving development experience.

Familiar with using Git, SVN, HTTP proxy tools, command line tools.

Able to develop a simple node(express)–mysql project, have experience using next.js, and able to deploy them to linux server.

Have limited CRUD experience in Java development in Spring project with the premise that all basic structures are done.

Projects

APP

掌上基金: Hybrid APP, used to buy funds online. React, react–router, redux are used. During the development, I had reduced one of the webpack&react project included in this APP by 78% in size (from 4.6M to 1M) and 87% in compilation speed (from 150s to 20s). Download url: https://sj.qq.com/myapp/detail.htm?apkName=howbuy.android.palmfund.

太平洋保险: React Native, used to buy life insurances online. React–router are used. Download url: https://sj.qq.com/myapp/detail.htm?apkName=com.cpic.sxbxxe.

寻单王: **Developed independently.** Hybrid APP, created with Dcloud hBuilder. Vue, vue–router, vuex are used. Alipayment and wechat payment are both enabled. Download url: https://sj.qq.com/myapp/detail.htm?apkName=com.rongjinku.app.wk.

Wechat Official Account (you can scan QR code via WeChat to follow official account)

苏通云课堂
